

MSME GEF UNIDO CLEANTECH PROGRAMME for SMEs

National Implementing Partner

Ministry of Micro, Small and Medium Enterprises (MSME), UNIDO and FICCI launched the MSME GEF UNIDO Cleantech Project titled "Promoting Clean Energy Technology Innovations and Competitiveness of SMEs in India" in 2013.

The programme aims at promoting clean technology innovations and entrepreneurship in selected SMEs in India through cleantech innovation platform and entrepreneurship development programme.

Entries are being invited for the Annual National Level Competition for the selection of Best Innovations/SME Entrepreneurs in Clean Technology across all industrial sectors focusing on following technology areas –

- Energy Efficiency
- Renewable Energy
- Waste to Energy
- Water Efficiency

Last Date to Receive Entries
31st July 2014

Call for Mentors

Nominations are invited from experienced entrepreneurs and cleantech professionals who are willing to spend time and energy with the SME. The mentors will be experts and specialists who will work with the SME companies in a cross-section of business

You may even send us your entries via hard copy as per the format below
